

Bug-report ID	A1
Summary	The error message does not appear when trying to upload a text document with the docx extension to the place of the social network avatar photo
Pre-condition	The user is registered and logged in to the social network.
Steps	<ol style="list-style-type: none">1. On the main page, click on the avatar picture to go to the user profile.2. Click on the avatar photo.3. In the drop-up menu, select the Update main image option.4. Click Upload photo.5. Select a text document with the extension docx.6. Click Open.
Expected result	It is impossible to select a text document. When you try to download a text document with the docx extension to the place of the avatar photo, a red message appears about the mismatch of the document extension, and the necessary requirements for the photo are indicated.
Actual result	The user uploads a text document with the docx extension to the place of the social network avatar photo without interference.
Post-condition
